

InfraWare CEO Nick Mahurin Featured in June 2008 InsideIndianaBusiness.com Report

Nick Mahurin, chief executive officer of InfraWare, Inc., was invited as a guest speaker during a summer lecture series for students, faculty and staff at the Rose-Hulman Institute of Technology in Terre Haute, Ind. A summary of Mahurin's lecture was included in the June 30, 2008 issue of the InsideIndianaBusiness.com Report.

Business Leaders Hold Discussions with Rose-Hulman Students

TERRE HAUTE, Ind. -- Rose-Hulman Institute of Technology students, faculty and staff members have been given the opportunity to rub elbows and seek career advice from business leaders, company presidents and lawyers through a summer speaker series at Rose-Hulman Ventures.

Twelve 30-minute sessions have been scheduled through Aug. 13 at Rose-Hulman's South Campus, located off Indiana 46.

Series topics have provided helpful advice about entrepreneurship, starting a business, career planning and intellectual property agreements in legal contracts.

"Combined with a strong foundation of technical ability, these speakers bring important insights into the professional skills that will make Rose-Hulman students successful in developing their own businesses or becoming more productive young professionals," stated William Kline, associate dean of professional experiences at Rose-Hulman and head of Rose-Hulman Ventures. "The visiting professionals also help to provide a vision of the future and what is possible for our students after they graduate."

Nick Mahurin, president and founder of Terre Haute's InfraWare, Inc., discussed valuable lessons about entrepreneurship. He has started several successful businesses since earning a mechanical engineering degree from Rose-Hulman in 1989. He stated that being committed to an idea, not abundant financial capital, is the key to starting a successful business.

"If you have a lot of drive and a really good idea, you will get money to make your dreams a reality," Mahurin said.

Later, he added: "Failure is part of entrepreneurship....Using a sport analogy, I'm out there swinging for base hits every day, every year. As an entrepreneur, you can't be afraid to get into the batter's box and take your swings. You may strike out, but one of those hits might be a home run."

A total of 83 Rose-Hulman students are working on projects with 26 clients this summer at Rose-Hulman Ventures, giving students an opportunity to earn valuable work experience, said Kline. Students participating in Rose-Hulman's new Leadership Academy also participate in the summer speaker series.

About InfraWare, Inc.

InfraWare is one of the medical transcription industry's fastest-growing ASP software companies serving Medical Transcription Service Organizations (MTSOs). InfraWare is not owned by—nor does it compete with—MTSOs. The fast, powerful, easy-to-use InfraWare 360 ASP platform was developed with input from hundreds of MTSO customers, enabling them to quickly and accurately produce more lines of transcription with each MT and better serve the needs of their physician and hospital clients. The intuitive InfraWare platform includes flexible dictation options, back-end speech recognition, transcription processing with a built-in word expander and medical spell check dictionary, automated document delivery options, and a management console to streamline administrative and quality assurance processes.
